

RESOURCES FOR COLUMBIA-GREENE MANUFACTURERS

THURSDAY, JUNE 15 | 8:00 - 9:30 AM

Join us to learn more about what resources the Center for Economic Growth's Manufacturing Extension Partnership (MEP) Team has specifically for small to mid-sized manufacturers.

As an MEP, we provide growth and innovation services to create and retain jobs, increase profits, as well as save time and money.

These vary from tools and programs to enhance operational efficiencies, automation solutions, supply chain management and workforce and apprenticeship solutions.

Don't miss this opportunity to enhance your operations.

Presenters:

Don Wiesenforth, Senior Vice President, Business Growth Solutions Director, Manufacturing Extension Partnership

Don is a seasoned leader with over twenty-six years of diverse professional experience including as owner and president of a local manufacturing company, founder and partner of an exhibition management company, leading a lean transformation in healthcare, as well as a strategic business advisor to manufacturing and technology companies.

Christine McLearn, Director, Workforce Development

Christine started at CEG in 2021 to oversee workforce programs and partnerships, including management of CEG's group sponsor program for NYS Registered Apprenticeship. With a specific focus on manufacturing trades, this program supports attraction and retention of diverse talent to meet workforce needs.
